7	8	9

**QC System**

**IQC**  
(Input process Quality Control)

Machine body mill and testing

Machine body 650°C heat treatment

Guide rail parallelism test(collimator set)

Screw test(dial indicator)

Rack gear install

Beam perpendicularity test (Marble feet)

**QC System**

**FQC**  
(Finished Quality Control/  
Whole machine test)

1. Parts test

2. Samples cutting test

3. 24 hours whole machine aging test

1> Wire inspection

2> Table flatness inspection

3> Laser tube test

7> 48 hours aging test

6> Finished test report

4> Laser path checking

5> Sample marking test

# Packing and shipping

1. Machine cleaning

2. Protective film wrapping

3. Wooden box sealing

6. Container loading

5. Wooden box delivery

4. Box Nailing

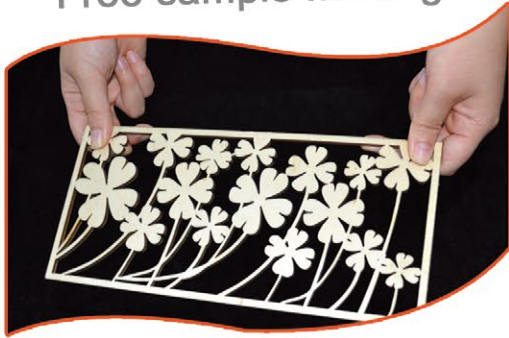

7. Container sealing

8. Transportation

# Customer support

Free sample making

Free customers training

2 years warranty

24 hours multi-language support team

After-sale technical support team

24 hours on-line support
